

DIAMOND COOLANT™

User Instructions

Inland DiamondCoolant™ is a water soluble lubricant that you can add to the water reservoir of your diamond shaper / edger, saw, or flat lap machine to increase the life of your diamond bits, drums, and blades.

Safety

- Do not swallow
- Avoid contact with skin
- KEEP OUT OF THE REACH OF CHILDREN.
- Do not freeze, store in a cool place.
- Refer to the [MSDS](#) for additional information

Instructions

- Generally for grinders / shapers you can add two caps full of Diamond Coolant to the water in the reservoir which generally holds about 2 cups of water. For other machines such as bandsaws, disc grinders, flat laps, and saws, adjust the proportion accordingly.
- You could also pre-mix a quantity, adding 2 oz. of diamond coolant to a gallon of water and it would be ready to add to any of your band saw, grinder, flat lap, or trim saw reservoirs as needed. **Just be sure to label the container so you know what is inside.**
