

inland
MOTORSHAFT LUBRICANTTM
User Instructions

Inland MotorShaft LubricantTM is a Teflon based lubricant designed to make grinder bits and saw blade arbors resist freezing onto the motor shaft and remove easily.

Safety

- Do not swallow
- KEEP OUT OF THE REACH OF CHILDREN.
- Do not freeze, store in a cool place.
- Refer to the [MSDS](#) for additional information

Instructions

- Apply a generous amount to the entire motor shaft on your glass grinder or hobby shaper whenever you install, change or move the diamond bits, discs, and sanding drums.
- Apply a small amount to the entire motor shaft of all Inland SwapTop motor shafts whenever you install or change bits, drums and flat lap or blade arbors

Service

If you have a stuck grinding head or bit, please refer to our [How to Remove a Stuck Bit](#)
